FOR IMMEDIATE RELEASE

## Bunch & Associates Announces New Client: SFN Group

Lakeland, Florida (June 15, 2011) – Bunch & Associates, LLC (hereafter “Bunch”), a leading workers’ compensation medical management firm, is pleased to announce that it has been selected to provide managed care services for SFN Group. Bunch’s clinical focus, innovative technology and outcomes-driven programs will enhance SFN Group’s unique claim management model, from initial investigation through return to work, and will assist with closing claims more efficiently and cost-effectively.

SFN Group is a strategic workforce solutions company providing professional and general staffing services to approximately 8,000 companies. SFN Group clients include Fortune 500 firms as well as small to mid-size organizations. SFN Group employs more than 170,000 people annually, making it one of the nation’s largest employers. Under this agreement, Bunch will provide clinical intake services, Nurse First Response™ (NFR), medical case management and bill review services for SFN Group’s workers’ compensation program beginning September 1, 2011.

“As a proven managed care provider for other professional staffing firms, Bunch has a thorough understanding of the nuances associated with the employment services industry,” stated Kathy Sergi, president and chief operating officer for Bunch. “Our programs take into account multiple insurance policies, remote job locations, geographic variations in claim severity and litigation intensity, as well as provider apathy to progressive claim resolution. We believe Bunch’s focus on early medical intervention and aggressive case management and claim negotiation strategies will positively enhance SFN Group’s overall risk management program.”

“SFN Group is excited about implementing this new program with Bunch,” said Corey Berghoefer, vice president of risk management and safety. “We look forward to deploying some creative and focused clinical strategies combined with an integrated medical bill review platform that will produce even greater quality outcomes for our valued employees.”

### *About SFN Group:*

SFN Group (NYSE: SFN) is a strategic workforce solutions company that provides professional services and general staffing to help businesses more effectively source, deploy and manage people and the work they do. For more than 65 years, SFN Group has been an industry pioneer, sourcing, screening and placing millions of individuals in temporary, temp-to-hire and full-time jobs. SFN Group offers its staffing solutions through a family of specialized businesses: Technisource®, Tatum®, The Mergis Group®, Today’s Office Professionals®, SourceRight Solutions® and Spherion Staffing Services®.

### *About Bunch & Associates:*

Bunch & Associates is an innovative managed care service provider headquartered in Lakeland, Florida. Bunch’s multi-disciplinary approach, integrating technology, service and value, brings claim adjusters, nurse case managers, medical bill review staff and treating physicians together as extensions of the employer’s risk management department, lessening the client’s loss development curve and providing continuity across the injured employee’s continuum of care.
